

Features

The BT011 fuse terminal is made of high purity phosphor copper with tin plated surface. It is mainly used for connections in electrical circuits. This specification refers to model BT011-130.

- Material: high purity phosphor copper, semi-hard
- Thickness: 0.3mm
- Pb- and Halogen-free, RoHS compliant
- Smooth Surface and non-oxidizing
- Soldering temperature: $260\pm 5^{\circ}\text{C}$
- Matte-Tin plated.

Dimensions (unit in mm)

Specification depend on force
not for the size

Note:

Insert and pull out force standard:
 A: First time insert < 55N
 A: First time pull out > 45N
 Sixth time pull out > 15N
 Front and back Loose force > 20N

Not mentioned dimensions tolerance is 0.2mm
